

Understanding Local Government Finance

Understand the local government legislative requirements

Synopsis

The “Understanding Local Government Finance” course is suited to team leaders, supervisors and managers who need to improve their understanding of Local Governance finance and the legislative requirements needed in order to comply.

Commencing with the legislative requirements for accounting and finance, this course will then consider the budget process and the three major financial statements, ie Financial Position, Comprehensive Income and Cash Flows. Finally, financial performance will be considered with the introduction of financial ratio analysis techniques and consideration of council financial data.

Course Topics

- Corporate governance
- Overview of local government finance legislative requirements
- The budget process
- Review of three major financial statements
- Financial position
- Comprehensive income
- Cash flows
- Financial performance and ratio analysis techniques
- Council financial data
