

Health and Safety Committee Workshop (HSC)

Identify and implement the legislative function of the Health and Safety Committee

Synopsis

This workshop provides topics to cover the legislative requirements and functions of the Health and Safety Committee:

- Importance of managing Work Health and Safety at the workplace
- Introduction to Work Health and Safety Legislation
- Work Health and Safety Consultation Legislation
- Hazard Identification and Risk Management
- Functions, Roles and Responsibilities for Work Health and Safety Committee Members
- Leading the "ORG NAME" - Health and Safety Culture

How is it Relevant?

Health and Safety Committees (HSCs) allow businesses to work together with workers on health and safety matters. The main functions of a committee are to facilitate cooperation in developing and carrying out measures to improve the health and safety of workers. Not all members of organisations are aware of, or understand the purpose, functions, or responsibilities of the HSC.

After attending this course, participants will be clear on their responsibilities and how to form and function as a health and safety committee.

Course Details

Delivery: Inhouse Delivery only

Structure: Interactive Workshop

Time: One-day workshop

Class Size: Max 15

The Trainer

With over 25 years' experience in Work, Health and Safety and developing, designing, and delivering safety programs, Ken Golden provides a down-to-earth delivery style and uses easy-to-understand practical examples to transfer learning to his participants. Ken's training and WHS experience has him delivering WHS training at all levels of local government or within the public sector. He also conducts WHS audits, reviews and inspections and his passion includes being able to influence at least one person per day to remain healthy and safe!
