

eLearning: Local Government Worker

This workshop is required by Local Government. Workers who need to enter property

Synopsis

In Queensland, local government workers and contractors who enter private property to perform work should undertake the Local Government Worker online course.

The Local Government Act 2009 (LGA) empowers two specific roles within council to execute certain powers on behalf of council, these are an Authorised Person and a Local Government Worker.

A local government worker is authorised to carry out work on a property, especially to work on local government facilities e.g. water and sewerage pipes.
